The Club considers safety to be the most important feature of any club or related event.

The Club assumes (in the absence of club competency testing facilities) that every participant (including passengers) in such events has the competency and license requirements to operate their vehicle within the required traffic laws. This assumption shall apply to all aspects of any other club activity. Ultimately, it is the individual's responsibility to maintain themselves in a safe and lawful manner and the club does not accept liability to any injuries or damages that may result from their actions.
